## WASHINGTON CITY.

### The Democrats Arrange the Senate Committees.

**Organization to be Delayed by Republicans.**

**Argument on Both Sides of the National Bank Case—Secretary Blaine Takes Hold of the Pork Prohibition Matter, Etc.**

[SPECIAL DISPATCHES TO THE OREGONIAN.]

WASHINGTON, March 10.—Wm. E. Chandler is to be solicitor general of the department of justice. It is thought that Col. Russell, of Texas, will secure the first assistant postmaster generalship. For the second place Don Cameron is pushing Wm. A. [illegible], of Pennsylvania, who steadily voted for Grant in the Chicago convention. French and Upton will both leave the treasury department, and Ed. McPherson will take the first place. Hon. Jerry Rusk, of Wisconsin, and Hon. Jonas H. McGowan, of Michigan, want the agricultural bureau. Hannibal Hamlin can have the collectorship at Boston. For the Austrian mission there are four applicants, and for the postoffice at Youngstown, Ohio, no less than 15.

**Official Nominations.**

The president to-day nominated Sanford A. Hudson, of Wisconsin, associate justice of the supreme court of Dakota, and Clarke Carr postmaster at Galesburg, Ills.

**Diplomatic Reception.**

The diplomatic corps paid their respects to President Garfield this afternoon.

**Senate Organization.**

Republican senators will not filibuster against senate organization to-morrow, but they will require enforcement of the rules. Under the rules unless unanimous consent is given committees are chosen by ballot, and it takes two ballots for each committee. By this process progress will be slow. There is considerable dissatisfaction on the part of some democrats at the place assigned them and there was a good deal of grumbling in caucus yesterday. When Camden of West Virginia was proposed for the finance committee there was great indignation. Camden is connected with the Standard Oil Co., is president of a national bank and represents the B. & O. R. R. Democrats in caucus declared that to put him on the finance committee was simply giving monopolies increased power. After some fuss Camden was taken off. The democrats have no intimation from Mahone, but most of them give him up to the republicans. Republican senators openly declare the purpose to reorganize when their vacancies are filled if the democrats crowd present organization. This is generally considered to mean that Mahone has indicated to the republicans his purpose to vote and act with them. The feeling among democrats to-day is they will not hold the organization long even if they get it.

**The Independents in the Senate.**

It is now understood that Davis will vote with the democrats. The republicans confidently expect Mahone's aid in the organization, and that they will soon control the patronage.

**Rumors of a Compromise.**

WASHINGTON, March 10.—Democratic senators who remained at the capital after adjournment have been notified of another caucus to-morrow morning. It is rumored that leading republican and democratic senators have conferred with a view of arriving at a settlement of the organization question amicably, and that the matter be acted on to-morrow. The chairmen of the republican and democratic caucuses have been in consultation this afternoon.

**The Senate Yesterday.**

WASHINGTON, March 10.—Immediately upon the assembling of the senate a message from the president was received.

Pendleton offered a resolution providing for the organization of standing committees of the senate. After the reading of the resolution Anthony moved that it be printed and lie on the table, subject to being called up to-morrow, agreed to. Pendleton then offered a resolution providing for the organization of select committees, which was disposed of in a similar manner.

The senate went into executive session, and when the doors reopened adjourned.

**Secretary Blaine on the Trichinosis Scare.**

Secretary Blaine to-day addressed a note to the British legation on the subject of false reports sent by acting British consul at Philadelphia in regard to the prevalence of disease among the swine of the western states. The secretary reiterates the statements made in Evarts's note of the 7th of March that all means of information of the department concur in showing the late published reports wholly without foundation and sends copies of resolutions by the Merchants' Exchange at St. Louis and the Chamber of Commerce of Cincinnati explicitly denying reports of disease among swine and showing that the condition of Ohio and Illinois is exceptionally healthy. The statement of Mr. Crump in regard to the prevalence of disease in Ohio is emphatically and fully denied. The secretary of state sent also the substance of a communication received from the secretary of the treasury conveying an explicit denial of the report published in England and asking that the character and source of information on which Crump's dispatch was based be ascertained. In answer to the British minister's statement, that the consul at Philadelphia made his report upon what appeared to be good authority, the secretary of state says: "All this government can learn, after searching inquiry, leads irresistibly to the conclusion that the good faith of Her Majesty's representative at Philadelphia has been imposed upon by designing speculators to their own selfish interests and to the incalculable injury of legitimate commerce."

The secretary further expresses his trust that the British minister will concur with him in the opinion that no steps can be too urgent or imperative to overtake and contradict this false statement, and that this government confidently looks to Her Majesty's legation for authoritative denial.

**Conference With the Utes.**

WASHINGTON, March 3.—Acting Commissioner of Indian affairs, Indian Agent Berry and three Uncompahgre chiefs held a conference to-day with Secretary Kirkwood at the interior department relating to the selections of lands under the new treaty for the Uncompahgre Utes, and expressed a desire to have lands apportioned them adapted to grazing and agricultural purposes, and claimed that along Grand river where under the new treaty they are to be located, there is not sufficient land of this character. After the Indians had made known their wants the conference adjourned to meet to-morrow when it is expected that the department will be prepared to offer them assurances that in the selection of lands their wants will be satisfied.

**A Dishonest Dead Letter Clerk.**

Thos. M. Baker, clerk in the dead letter office, has been arrested on a charge of rifling a dead letter. Baker has been twelve years in the department.

**Resignation of John Hay.**

John Hay, assistant secretary of state, resigns on account of a private engagement, but consents to remain temporarily in charge.

**Secretary Lincoln.**

Secretary of War Lincoln to-morrow takes charge of his department.

**General James Serenaded.**

Postmaster General James was serenaded to-night. He paid a high tribute to President Garfield. Ex-Postmaster General Maynard was warmly eulogized.

**The Greenbackers.**

The congressional committee of the national greenback party has issued an address to the people of the United States, beginning with an extravagant and palpably false statement of wrongs perpetrated by national banks. Railroad and telegraph companies are also attacked. They advise the formation of greenback clubs, and predict final triumph. Thos. J. Durant, Leo Krendall, Edward Daniels and Epperitus Howe, members of the executive committee of the greenback congressional committee, have addressed a letter to Thompson H. Murch, chairman of the committee, in which they decline to attend a meeting called by Murch in New York to-morrow. They also inform him that his resignation as chairman of the committee is accepted, and they will call the entire national committee together soon to elect a successor.

**Terms with the Utes.**

Secretary Kirkwood informed the Uncompahgre Ute chiefs that a change could be made in the terms of the recent agreement. If sufficient agricultural lands cannot be found in Grand river valley they will be selected in Utah.

## THE RE-DEPOSIT QUESTION.

**Interviews with Secretary Windom and others—An Unwritten Precedent—Morton Objects.**

WASHINGTON, March 10.—Up to close of business at the treasury department to-day Secretary Windom had not rendered a decision upon the pending request of national banks that they be allowed to re-deposit U. S. bonds in the treasury and withdraw legal tenders recently deposited for the purpose of retiring circulation. Secretary Windom in conversation on the subject to-day referred to the question as one of vital importance and said that he was most desirous of having it determined at the earliest possible moment, but owing to great pressure of business had not been able to decide. Inquiries made of officers of the treasury as to the authority upon which the present regulations of the department rest, elicited many varying opinions. The comptroller of the currency stated that the question had never before been before the department for decision, and that in no case where bonds had been deposited to retire circulation had legal tenders been surrendered.

Other very prominent officers expressed the opinion that during ex-Secretary Bristow's administration the question was orally decided against permitting the surrender of lawful money deposited. The officers referred to maintain that there is nothing in law which authorizes such surrender, and that the statutes expressly provide for a mode of procedure which has invariably been followed by the department, namely, that a deposit of lawful money once made to retire circulation cannot be surrendered, but must be held until expended in redemption of circulation of the notes of the bank making such deposit originally. It is stated that a bank was not permitted to take out new circulation until its deposit of lawful money for redemption of its circulating notes has been entirely exhausted. Legal tender notes deposited to retire circulation of national banks are not to deposite in the vaults of the U. S. treasury, but enter into its cash, a credit being given on the books to account for the redemption of notes, the bank depositing, and notes redeemed being paid from cash and charged to account. In fact the account is treated just as a disbursing officer's account is treated, or as a bank treats a depositor's account. Legal tenders so deposited, are not included. The treasurer's balance, as shown by the public debt statement, includes such moneys only as are subject to draft in payment of demands against the government. The total amount of legal tenders deposited during the pending of the funding bill was $18,764,434, of which $1,285,500 has been returned to banks in legal tender notes, under decisions of the U. S. treasury, leaving the remainder on deposit. This sum belongs to 138 national banks, 17 of which have on hand, in the office of the comptroller of the currency, circulating notes amounting to $117,3[illegible], and 121 of which have on deposit $4,376,270, so that $4,494,050 of the circulating notes of the national banks could be immediately forwarded to those banks which have recently deposited lawful money in the treasury to reduce their circulation. The remainder, about $12,000,000, comptroller Knox says could be sent in about 30 days. When asked what effect the decision in favor of withdrawal of legal tenders would have on the treasury, U. S. Treasurer Gilfillan said, that if the decision shall be of general character, that is, not confined to deposits made during the pendency of the funding bill, it will affect about $40,000,000 now on deposit at the treasury department for the reduction of circulation. Levi P. Morton called at the treasury department and expressed himself in opposition to the surrender of legal tenders by the government.

## THE SENATE COMMITTEES.

Of select committees, Teller goes on the electoral count on census, Hill on the census, Miller on the epidemic diseases, and Pugh on enrolled bills.

## THE NORTHWEST.

**Western Oregon.**

Mrs. Jas. De Shields of Zion, Clackamas county, *who was so severely burned on the 10th of February*, died from her injuries last week.

At the annual school meeting at Oregon City, W. H. Pope was elected director and H. J. Harding, clerk. A 4½-mill tax was voted. The meeting was unusually harmonious.

Salem levies a 4-mill tax for school purposes. The taxable property in the district is returned at $1,250,000. The expense of running the schools during the past year amounted to $7362.

Enterprise: The school meeting on Monday at Canemah passed off very quietly indeed, there being *an entire absence of the excitement that sometimes* accompanies the meetings at that historic burg. Mr. Z. C. Wood was elected director and sworn in, and Mr. H. May, school clerk. A tax of two mills was voted, and the meeting was adjourned by the chairman, Mr. Day. The following evening some of the citizens met again and elected Mr. Hedges director, the same clerk as on the night before, and voted a tax of one-half mill. So Canemah has four directors and two levies voted.

**Eastern Oregon.**

The roads between Union and La Grande continue to be in an almost impassable condition.

Farmers throughout Grand Ronde valley are busy preparing for their spring crops. An abundant yield of grain is predicted.

The worst part of the road between The Dalles and Prineville is between the former place and Five Mile creek, where it is almost impassable.

The Harvest Queen is laid up for repairs and the Mountain Queen has again taken her place on the route between The Dalles and Upper Cascades.

Several parties in Union and La Grande have formed a joint-stock company to build a mammoth flume from the head of Catherine creek to Union.

The barges Wasco and Atlas and the steamer Hassalo have been unloaded of iron, ties and car material during the week. The ties were for the O. R. & N. Co., the iron principally for the N. P. R. R., the car material for the shops in The Dalles.

Mrs. J. Thompson and John Thompson, her son, reached the Dalles last Sunday in charge of Deputy Sheriff Lucky, being arraigned for grand larceny committed at Prineville on the 28th ult. They are under bonds of $200 each, in default of which they were placed in the county jail.

*The school census for the Dalles district is as follows:* Number of residents, between the ages of 4 and 20 years—males, 404; females, 450; pupils in attendance on the public school—males, 201; females, 2[illegible]; average daily attendance, 271; teachers, 5; pupils attending private schools, 2[illegible]; legal voters 372.

Mr. Curtis, superintendent of the O. R. & N. Co.'s shops at the Dalles, has lately ordered from the east a double saw sawing machine, which he intends using for the purpose of cutting wood. This machine has the capacity of 100 cords a day, and requires four men to do the feeding. There are two saws in constant motion, and as the wood is cut by means of a revolving belt it is piled.

Monroe Hodges, a citizen of Prineville, while stooping to unhitch a tug from a team hitched to a scraper, received a kick in the face which fractured the left under jaw, cutting clear through the flesh and bone of the nose, near the upper lip, inflicting a fearful cut just under the eyebrow, and took a piece entirely out of the upper lip. Physicians express the opinion that he will recover though his wounds are extremely severe.

**Washington Territory.**

John Jaggy will begin at once the erection of a brick building at Vancouver 25x60 feet two stories high.

The woolen mills at Dayton, so we learn, have changed proprietors, Mr. Frary becoming the head of this valuable property.

Frank Dulger of Waldron's ranch, while riding into Goldendale last week, collided with another horseman, the result being a broken leg.

Wheat is quoted at 90 cents per bushel at Vancouver; potatoes, 50 cents per bushel; butter, 30@35 cents per pound; eggs, 16 cents per dozen.

L. L. Andrews, a merchant of LaConner, shipped to different markets the other day, over 400 dozen eggs, which he accumulated in two or three days.

The Seattle barrel factory will not start up again before the middle of April or the first of May. It will depend very much on the opening of the season. A continued spell of wet weather would prevent the getting out of bolts in sufficient numbers to warrant their starting up before the last named date.

A correspondent from High prairie says: The snow has all gone, and the grass is four or five inches high, and grain sown last fall looks fine. The total fall of snow was 14 feet 10 inches for the winter. Mr. Temple fed his cattle all winter on pine boughs which he gathered in the timber and brought home in sacks. He saved every head by this means. J. A. Pitman has lost only five head of stock, and Isaac Bumgardner only eight.

Post: At Pleasant bay, east side of Lake Washington, will be produced the present year a great quantity of strawberries. Not that the soil and climate are peculiarly adapted to the cultivation of this delicious fruit over other sections about Seattle, but because greater attention is given to that branch of small fruit culture. Last year about 1000 gallons were marketed; the present season will more than double this yield.

## GENERAL NEWS.

### Compromise between the Central and Southern Pacific Roads.

**Destructive Fire at Kansas City, Missouri.**

**The Most Powerful Light ever Produced by Human Agency—Storm on the Atlantic Coast, Etc., Etc., Etc.**

[SPECIAL TO THE OREGONIAN.]

KANSAS CITY, March 10.—Thomas Kimball, assistant general manager of the Union Pacific road, P. P. Shelby, general freight agent and [illegible], general ticket agent, arrived here to-day from Topeka where they have been for the purpose of establishing a pool between the Union Pacific and Atchison, Topeka & Santa Fe roads. Kimball says that although nothing definite was arrived at between the Santa Fe people and the Union Pacific, through rates between Missouri river points and San Francisco will remain the same as now over both lines. There will be no fight between the rival lines. The new road will need some ballasting before heavy freight trains can be run, but the intention is to have the road open for freight traffic by the 1st of April. Mr. Strong, general manager of the Topeka & Santa Fe, will meet Mr. Towne, the Southern Pacific manager at [illegible] next week, when everything will be settled between the three lines.

**Jay Gould at Chicago.**

CHICAGO, March 10.—Jay Gould and General Eckert were in town to-day, arriving from different directions. Gould visited the railroad offices and board of trade, and Eckert inspected the telegraph service. Interviews with them gave no information of general interest. Gould went east to-night.

**Railroad Conference.**

Assistant General Manager Kimball, of the Union Pacific, has returned from his conference at Topeka with officials of the new southern route, the Atchison, Topeka and Santa Fe, and Southern Pacific, and it is understood that a satisfactory agreement was made to maintain rates on both routes. Other matters were settled, and it is safe to say that there will be no cutting. An agreement is to be ratified by the presidents of both companies in New York.

**To Offset Gould.**

LOUISVILLE, March 10.—*The Chicago correspondent* of the Courier-Journal learns that the Pacific Railway Co., looking with alarm to Jay Gould's schemes, has arranged to consolidate its vast western interest, including some dozen lines, and to replace the various managements with one efficient set of officials. All previous experiments in this line have proved costly and inexpedient. F. A. Ford will be in charge of the western interests of the road.

**U. P. R. R. Election—Statement of Profits.**

NEW YORK, March 10.—The annual meeting of the stockholders of the Union Pacific railroad elected the following board of directors: Sidney Dillon of New York, Elisha Atkins of Boston, Fred'k Ames of Boston, Ezra Baker of Boston, S. H. H. Clark of Omaha, T. Gordon Dexter of Boston, David Dows of New York, Greenville M. Dodge of Council Bluffs, T. T. Eckert, Jay Gould, Solon Humphreys and Russell Sage of New York, Wm. L. Scott of Erie, Pa., John Sharp of Salt Lake City, and Augustus Schell of New York. The directors subsequently elected the following officers: President, Sidney Dillon; vice president, Elisha Atkins; secretary and treasurer, Henry McFarland. A dividend of 1½ per cent was declared payable. The first annual report shows the total earnings of the year to be $22,455,134; total expense, $10,545,119; surplus earnings, $11,917,015. To this must be added an income from investments of connecting roads, dividends on stocks and interest on bonds, amounting to $1,013,152, and profits on bonds sold, profits on investments, securities sold, etc., $284,249, making the total surplus earnings $13,201,416.

**Grain Shipments via the Gulf.**

NEW YORK, March 10.—The Commercial Bulletin says: St. Louis grain trade are quite jubilant over the increasing importance of that city as an exporter by the water route, as illustrated by such incidents as the departure the other day of the steamer Oakland, for New Orleans, with the largest tow of grain that ever descended the Mississippi, being a total of 20,647,590 pounds. This single cargo would require 700 freight cars, to have carried it on 35 separate freight trains and engines. Freights to New Orleans are much lower than the railroads can afford to carry for, but here the advantage to a great measure ends. For [illegible] the cost of transferring the grain from barge to steamer at New Orleans, with enhanced marine insurance and various other incidentals, bring up the total to a point which other things considered really leave the Mississippi exporters no advantage over the Atlantic ports.

**Cameron Elected.**

MADISON, March 10.—Angus Cameron was to-day elected senator vice Carpenter.

**The Minnesota Senatorship.**

ST. PAUL, March 10.—It is believed that the governor will appoint A. J. Edgerton, senator. He has been a democrat, a granger and a republican.

**An Ignorant and Sensational Report.**

NEW YORK, March 9.—A committee of the produce exchange, appointed to confer with the British consul at Philadelphia concerning the official dispatch of acting-consul, and now vice-consul, Crump, to the effect that 700,000 hogs had died of cholera in Illinois, reported to-day to the provision trade committee of the exchange. The committee requested the consul to furnish them with a copy of so much of the report as referred to the subject under consideration, which, after some hesitation, was granted. Its purport is already known. It details cases of trichina where the victims died, and also mentions that butterine and oleomargarine are commonly made from diseased hogs and exported. The committee say that Crump could not have intended to convey the horrible meaning the words indicate. He refused to answer and give his sources of information, claiming that it was a secret and that his government prevented him from revealing them. The impression given the committee was that Crump is sadly ignorant of the questions he proposed to treat, and his report was intended for sensational effect. He confesses that he knew that the hog mortality was no greater in 1880 than in 1879. He does not know that hog cholera has always existed like cholera infantum among children. He gives a revolting picture of trichinea, but withholds the fact that the simple process of cooking kills the destructive parasites. The English government is urged to take action accordingly on this important matter.

**Killed by a Train.**

OMAHA, March 10.—Smith Mead, a laboring man, was killed at Grand Island to-day by a Union Pacific engine running over his legs and the lower part of his body as he was attempting to cross the track. He leaves a wife and four children in destitute circumstances.

**Weather in the West.**

It is raining quite heavily here to-night. Between Grand Island and North Platte there is also heavy rain with thunder and lightning. It is raining hard and blowing at Cheyenne.

**The Walking Match.**

NEW YORK, March 10.—O'Leary became independent of his trainers to-night and informed them "I am boss." Rowell has followed Albert into retirement, but took a seven mile spin for practice which he ran in 41 minutes and 45 seconds. At 10:30 O'Leary retired for sleep, followed an hour later by Vaughan. Midnight score: Vaughan, 342; O'Leary, 325.

**The Pork Interest Excited.**

NEW YORK, March 10.—President Parker of the produce exchange yesterday sent a letter to Secretary Blaine requesting him to take such action as the importance and magnitude of the interests at stake demand, and to assure foreign governments that pork products manufactured in the United States can be consumed with impunity.

**How have the Mighty Fallen.**

NEW YORK, March 10.—Creditors of ex-President of Mexico Santa Anna have secured $30,000 worth of diamonds to settle their claims.

**Looks Bad for Whittaker.**

NEW YORK, March 10.—From the Tribune. In the Whittaker court marshal yesterday expert Southworth testified that he had discovered that the paper on which the note of warning was written had been written over with a pencil, and this writing afterwards erased by a rubber. The words erased were those used in the note of warning, and they were in the handwriting of specimens of Whittaker's writing given him.

**Death from Eating Canned Salmon.**

DUBUQUE, Iowa, March 10.—A sad case of fatal poisoning occurred in Elkadore, Clayton county, where Mrs. B. Vines, in company with her sister went out to tea and ate some canned salmon. Mrs. Vines died from the effects of the poison which was produced by corroding the can. The salmon was tainted and the can was turned green in consequence.

**Navigation on the Hudson.**

NEW YORK, March 10.—The Hudson river is open to Rockland lake, but it is thought that Wednesday's rain will hasten the breaking up of ice above that point. At the piers of the Albany boats active preparations are being made for start upon the river. A profitable season is expected by steamboat men generally. A few boats were announced to start for points between this city and Albany on Wednesday.

**California Horses Entered for Eastern Races.**

NEW YORK, March 10.—Secretary Wheatley of the Saratoga Association, has received from E. J. Baldwin of California, entries of his bay mare "Clara D.," six years, by "Glenelg" out of "The Nun," and chestnut mare, "Jennie B." five years, by "Glenelg" out of "Regan." They are both entered in the cash, summer and Baden Baden handicaps, and for the grand prize of Saratoga and Morrissey stakes.

**Flood in the Republican River.**

OMAHA, March 9.—It is estimated that the breaking up of ice and a flood in the Republican river have caused a loss of over $100,000 in the Republican valley, Nebraska. Bridges at Bloomington, Orleans, Naponee, Franklin, Red Cloud, Indianola, Hardy, Alma and Republican City went out with the flood. The loss of bridges alone amounts to $50,000. The Franklin flour mill is a total loss; damage $10,000. The Orleans flouring mill was damaged $3000. The Franklin cheese factory was destroyed; loss $1000.

**Captain Payne.**

FORT SCOTT, March 10.—Payne, the Oklahoma raider, seems to have been backed by the Atlantic and Pacific.

**Meeting to Talk about the Education of Indian Youths.**

NEW YORK, March 10.—A meeting will be held here on the [illegible] in behalf of Indian education, on the basis of work begun at Hampton Institute, Virginia. Among the speakers are Carl Schurz and Rev. [illegible] and Potter. [illegible] will be present.

The Times says that [illegible] the meeting will [illegible] a new [illegible]. The [illegible] Indian [illegible] associations [illegible] and [illegible] Indian girls. [illegible] hope that President Garfield [illegible] in May [illegible] anniversary day.

**A California Bullionaire at Rome.**

NEW YORK, March 10.—J. W. Mackay, a California [illegible], has been in Rome [illegible] right and left. It is said that he brought [illegible] acquiring the [illegible] and [illegible] with Prince Torlonia about a price.

**A New Mexico Railway.**

[illegible], March 10.—Another Mexican railway [illegible] has been chartered [illegible]. Among the incorporators are Gen. [illegible], Gen. Butler, U. S. Grant, Jr., and two Mexican capitalists. The road will extend from Eagle Pass on the Rio Grande to the bay of Topolobampo, on the gulf of California, with branches.

**Gould's Trip to the Southwest.**

ST. LOUIS, March 10.—Jay Gould and party returned from their trip to Texas this evening and left for Chicago well satisfied with the trip. The business of his roads and his varied interests in that section of the country are in a prosperous and gratifying condition.

**A Legislature Does the Polite.**

TOPEKA, March 10.—General Manager W. B. Strong, of the Atchison, Topeka and Santa Fe railroad, received the following dispatch to-day:

PRESCOTT, A. T., March 9.

Congratulations of the eleventh legislative assembly of Arizona are tendered to the Atchison, Topeka and Santa Fe and Southern Pacific railroad companies upon the junction of their roads.

**Fire in Kansas City.**

KANSAS CITY, March 10.—The greatest fire known in Kansas City for many years occurred this morning on Union street, between Mulberry and Santa Fe streets, by which was destroyed part of a magnificent new block of buildings, occupied by Woodward, Faxon & Co., wholesale druggists; Kelly, Wells & Co., wholesale hardware; Ogleby & Co., wholesale grocers. The flame, when first seen, burst from a rear window of Faxon & Co's store. By the time the firemen arrived, at 4 o'clock, the roof and windows glared terrifically with the leaping flames. A series of explosions, numbering not less than 75, took place, caused by cans of gun powder in the establishment of Ogleby & Co., and barrels of coal oil in the drug house of Woodward, Faxon & Co. These explosions were loud enough to be heard throughout the city, and by families two miles from the scene of the fire. The water pressure, which should have been 99 pounds to the square inch, was scarcely sufficient to carry a stream to the second story windows. Woodward, Faxon & Co., loss, [illegible]; insured, $60,000; Ogleby & Co., loss, [illegible]; insurance, [illegible]; Kelly, Wells & Co., loss, [illegible], fully insured. The building was owned by Leach, Olmstead & Hall, and valued at [illegible], on which there was an insurance of $28,000.

**Storm along the Northeastern Coast.**

BOSTON, March 10.—A severe storm prevailed last night along the coast, and still continues. A number of vessels are in distress.

**Schooner Lost.**

[illegible] BAY, March 10.—An American schooner, name unknown, has been lost with all on board.

**Counterfeiters Traced to Texas.**

DALLAS, Texas, March 10.—A considerable flurry was created yesterday among state and federal officials by the discovery that a band of counterfeiters have been trailed by detectives, from Pennsylvania to Dallas. It is reported, bills of the denomination of $10 and $20 on the first and fourth national banks of Boston, reported in circulation here several days ago. It is said that $50,000 in counterfeit notes of various [illegible] banks [illegible] the history of [illegible] detectives assert that [illegible] as handlers of the [illegible] almost perfect imitation of notes of the banks in this part of Texas, and that rewards for the capture of the [illegible] amount to $[illegible].

**A Powerful Light.**

[illegible], March 10.—A remarkable electric light [illegible] by Brush & Co. to order for use in the British navy, was successfully tested yesterday. It has a hundred thousand candle illuminating power, [illegible] times greater than an ordinary electric lamp for street lighting, and is believed to be the largest and most powerful light ever made with human hands. *It is designed to be used at* night attacks and to scrutinize the sea for torpedoes. A 40-horse power engine is required to produce the light. The carbons used are two inches and a half thick. An intense heat is generated between the carbon points, equaling one-ninth of the estimated heat of the sun. It is calculated that with an ordinary reflector a beam of light can be cast so powerful that persons 15 miles away can see to read by it.

**Railroad Wreck Near Baltimore.**

BALTIMORE, March 9.—A passenger train was wrecked to-day by a washout on the Baltimore and Potomac. The fireman was killed and several others injured.

**Steamer Lost.**

The steamer Erin, from Liverpool, to-day brought the captain and crew of the steamer Drumdruff, from Philadelphia for Antwerp, abandoned at sea in a sinking condition on the 5th inst. One man was lost.

**More Gold.**

NEW YORK, March 10.—The Parthia brought $500,000 in gold.

**Fatal Row in Kentucky.**

CINCINNATI, March 10.—At Cynthiana, Ky., last night, Sallie Carr wound up a day's quarrel and convivial drunk by cutting Rose Fowler's throat, causing instant death. Both were negro women.

At Farms, Rowan county, Ky., yesterday evening, John C. Lightfoot received a shot in the thigh from McDermitt's pistol and sent a ball from his own pistol through McDermitt's heart, causing instant death. This was an old grudge. Both were young men.

**Whisky.**

CINCINNATI, March 10.—Whisky 9.

**Death of James A. Whitaker.**

NEW YORK, March 10.—Chief Engineer James A. Whitaker, U. S. N., died in Brooklyn from erysipelas, resulting from recent vaccination.

**Fire at Dubuque.**

DUBUQUE, March 10.—Cushing's vinegar factory burned to-day, loss, fully $30,000; insured, $5,500. Caused by friction of machinery in the top story.

## SOUTH AFRICA.

**Peace Negotiations.**

LONDON, March 10.—President Brand telegraphs that Donald Currie, member of the British parliament, who has before rendered assistance to the government in the settlement of South African disputes, expects to reach the frontier on the 13th inst. He has written Joubert to state when Joubert and Kreyer could meet him. He hopes that a short extension of the armistice will be made if necessary to effect a settlement.

A dispatch from Prospect Hill stated that Joubert has sent 300 men to Utrecht who have completely cleared the town and district of inhabitants loyal to the British. It is reported that Joubert has ordered all homesteads of loyal Boers in the Utrecht district to be burned. This has excited the deepest indignation at Prospect Hill, being considered a breach of the spirit of the armistice.

The 83d foot, a detachment of dragoons, mounted infantry, and a battery of artillery have reached Newcastle.

President Brand has started for Harrismith to negotiate with the Boers.

**The Armistice with the Boers.**

In the commons Gladstone stated that the government had assented to a prolongation of the armistice with the Boers. The announcement was received with cheers by the radicals.

## CANADA.

**Princess Louise.**

OTTAWA, March 10.—Princess Louise will return the first week in May, and will visit Manitoba in autumn.

**Personal.**

Sir Charles Tupper, minister of railways, seriously ill for many weeks, has sailed for England on a six months' tour.

**Preparing to go to Work.**

CHICAGO, March 10.—The Winnipeg & Pacific syndicate have commenced bringing over to the west side of Red river supplies for the coming season.

Mr. A. J. McLellan, superintendent of construction and bridges for the O. R. and N. Co., has resigned his position. He has received and accepted the appointment of general superintendent of bridges and trestle work for the N. P. R. R. of the Pen d'Oreille division. He informs us that the Northern Pacific will have a great many bridges to build in that division, one over Hangman creek to be 150 feet high, and will take 3,000,000 feet of lumber in its construction.

Klickitat Sentinel: Several of Geo. W. Waldron's employes were out on the range hunting horses, and while in the neighborhood of the Haystacks—the highest point on the Columbia river hills—came upon a snowslide in which they found 24 head of horses imbedded in sight, and were unable to make an estimate of the number underneath the snow. In the vicinity of the slide they noticed a number of horses grazing with legs broken, stifles out and otherwise maimed.

## BY ATLANTIC CABLE.

**A London Journal on Garfield and his Wife.**

LONDON, March 10.—The World's last celebrity at home article describes President Garfield and makes some very complimentary remarks, concluding that *the universal* [illegible] that Garfield will be an immensely popular [illegible] president, and that four years will not see the end of his stay in the White House. Mrs. Garfield is described as a quiet, gentle lady, [illegible] soft and [illegible], yet full of tender thoughtfulness.

**Death of an English Judge.**

Sir Henry Jackson, just recently appointed judge of the high court of [illegible], is dead.

**Steamer Damaged.**

The steamer [illegible], Capt. Cunningham, from West Hartlepool for New York, put into the Tyne. She had her deck swept and lost her cattle deck and [illegible]. She sailed in a dangerous list to port, the cargo having shifted and sustained other damage. The captain was injured.

**Sale of Two Celebrated Paintings.**

The crown prince of Germany has purchased Rembrandt's "Neptune" and "[illegible]" for [illegible] of Vienna, for two hundred thousand marks.

**Irish Affairs.**

LONDON, March 10.—Parnell has promised to attend a great tenant rights demonstration at Enniskillen on Monday. The Ulster [illegible] is making great preparations for the meeting. Precautions at [illegible] are being gradually relaxed [illegible].

Dillon and Brennan visited the prisoners to-day.

Twenty warrants for arrests in county Westmeath have been issued.

**Parliamentary.**

LONDON, March 10.—The conduct of Playfair cannot be treated as a question of privilege, and O'Donnell therefore submitted an amendment on the house going into committee of supply, challenging the decision of Playfair.

**Rumored Official Changes.**

It was rumored yesterday that Gladstone, retiring the office of first lord of the treasury, would resign the chancellorship of the exchequer to Hugh C. Childers, the marquis of Hartington succeeding the latter as secretary of state for war and Lord Derby succeeding the marquis of Hartington as secretary of state for India and president of the council for India.

**Pending Measures.**

In view of the conclusion of the debate on the coercion bill, extreme liberals pressed a new policy of attention on the Parnellites. It is proposed that, by stubbornly moderate opposition in committee of supply, the home rulers should endeavor to obliterate the strong feeling against their conduct in England. This accomplished, in the event of the land bill not being thoroughly satisfactory, certain liberals will undertake to participate in an appeal to public opinion in the provinces.

LONDON, March 10.—The arms bill will have a third reading Friday. A clause was added granting licenses to carry arms to such occupiers of agricultural holdings as produce certificates, signed by two justices, that they need to have license.

Four more political prisoners are in Kilmainham jail, and Boynton has telegraphed to Minister Lowell, and he has asked the authorities for particulars of his arrest, charges, &c.

**Evacuation of Candahar.**

In the commons Hartington said that an order for the withdrawal of British troops from Candahar had already been given.

**Death of Caroline of Denmark.**

COPENHAGEN, March 5.—Queen Caroline, widow of King Christian VIII, is dead.

**Italy Invited to Join the Conference.**

ROME, March 10.—Representatives of France and the United States have delivered to Premier Cairoli an invitation to attend the International Monetary Conference. The invitation expressly states that [illegible].

**The Great Earthquake.**

NAPLES, March 10.—Details of further horrors from Casamicciola state that three hundred detached limbs, and fragments of bodies were dug from the ruins. A sadly interesting incident was a kerchief fluttering from the top of a tottering tower. Col. Paragin mounted a ladder and entering a window reappeared with a woman, unhurt but insane.

**Irish Arrests.**

LONDON, March 10.—[illegible] arrests have been made in [illegible].

**The [illegible] Shooting Contest.**

The rifle match between Carver and Scott for $[illegible] has begun [illegible]. Carver, 689; Scott, 23[illegible].

Second night of the Carver-Scott contest aggregate [illegible] balls broken, [illegible].

**The Monetary Conference.**

LONDON, March 10.—A deputation of the Liverpool [illegible] chamber of commerce yesterday held a conference with Hartington, secretary of state for India, and presented a memorial urging the government to appoint a commissioner to represent England, and especially India, at the monetary conference. Hartington pointed out that there was some difficulty, owing to the terms in which the invitation of France and the United States were couched. As originally worded, it seemed to commit the governments accepting it to the adoption of bimetallism and an admission that the maintenance of the gold standard is impolitic. The government could not participate in any conference which assumed its willingness to abandon the gold standard. Negotiations have taken place with a view to modifying invitations in order to permit England to accept. It [illegible] consistent [illegible] With those reserves England and India would accept any safe and prudent measure which ought to help to rehabilitate the values of silver.

A correspondent says: Germany accepted the invitation to attend the monetary conference with the express reservation that she will not regard herself bound in any way by the decisions of delegates.

**England and the Isthmus Canal Question.**

LONDON, March 10.—In the commons the under secretary replying to a question, said that there had been no correspondence recently with the United States respecting inter-oceanic communication. The subject was receiving the government's careful attention. The question recited a passage in Garfield's inaugural relative to the inter-oceanic canal, and asked whether by the Clayton-Bulwer treaty England and the United States had not agreed as a general principle to extend their protection to any practical communications across the isthmus, and whether the British government and the United States will or have come to an understanding as to the execution of this treaty in respect to the canal now contemplated.

**German Affairs.**

BERLIN, March 10.—The reichstag by a vote of 127 to 111 has decided to refer the bill for biennial budgets and quadrennial parliaments to committee.

In the reichstag to-day Scholz, secretary of state for the imperial treasury, declared that federal governments were resolved not to deviate from the basis laid down for coinage reform. Suspension of sales of silver did not indicate a tendency towards bimetallism. He said that Bismarck was emphatically in favor of the maintenance of statu quo. Reform of coinage could only be effected with his full concurrence. The monetary conference at Paris was not to be an experiment.

**A Small Matter.**

BERLIN, March 10.—The recent speeches of Bismarck, accusing the municipal authorities of unfairly assessing his house because of party prejudices, are much discussed and cause considerable irritation.

**The Hungarian Church.**

PESTH, March 10.—The general synod of the Hungarian Reformed church has resolved to forbid instruction in the German language in all the higher girls' schools and teachers' training colleges.

**Spanish Professorships.**

MADRID, March 10.—The papal nuncio has formally protested against the return of republican and rationalist professors to their chairs at the university. A prominent journal says: "The ministry cannot tolerate interference by the church with royal or constitutional prerogatives."

"The society of young naturalists at Seattle, though numbering but 10 members, has made an interesting and varied collection of minerals, birds, insects, eggs, fossils, curiosities, etc., all in the short space of one year.

**Slaven's Cherry Tooth Paste.**

An aromatic combination for the preservation of the Teeth and Gums. It is far superior to any preparation of its kind in the market. In large, handsome opal pots, price 50 cents. For sale by Woodard, Clarke & Co., Portland, Oregon.

**OUR EXPORTS.**

It is certainly gratifying to all true Americans to know that of late years our exports have largely exceeded our imports, not alone in such staple articles as wheat and beef, but in almost every branch of industry. Ten years ago nearly all the perfumery and toilet articles used in this country were imported from Europe; to-day we not only manufacture for ourselves, but are large exporters to South America, China, Japan and the Colonies. The immense growth of this particular industry on the Pacific coast is simply astonishing. Slaven, who is now one of the largest cologne makers in the world, last year exported some 2,000,000 bottles of his famous Yosemite Cologne. For sale by Woodard, Clarke & Co., Portland, Oregon.

## PACIFIC COAST NEWS.

### CALIFORNIA.

**Special Session of the California Legislature to be Called.**

SAN FRANCISCO, March 10.—It is authoritatively stated that the governor will call a special session of the legislature, beginning April 1. The call for an extra session will embrace the appropriation bill, tax levy bill, apportionment bill and amendments to the constitution which will be named in a special message from the governor to the legislature when convened.

**The Kalloch Murder Trial.**

SAN FRANCISCO, March 10.—In the Kalloch trial to-day, evidence is being taken as to the sanity of the prisoner. Dr. Davis, the family physician, testified that the shooting of his father and illness in his own family, had thrown the accused into a state of mind which might result in insanity.

**Death of a California Pioneer.**

[illegible], March 9.—George M. Gridley, a pioneer of Butte county, after whom this place was named, died at Oroville this morning, aged 63 years. He had resided here since 1850 and leaves an estate valued at $100,000, and a wife and seven children.

### ARIZONA.

**Social Item.**

TUCSON, March 9.—A Star special from Maxey of the 8th says: Dick Lloyd, a notorious cow boy, shot F. Mann, justice of the peace, this evening. After the shooting he rode into O'Neil & Franklin's saloon. O'Neil shot him dead and then gave himself up. Mann, it is thought, will survive. Lloyd has taken the town several times, riding into saloons, stores and private houses. He was a desperate character.

### NEVADA.

**The Nevada Lottery Scheme.**

CARSON, March 9.—Gov. Kinkead signed the Nevada lottery bill this afternoon. It is a scheme in which the leading men of the state are interested. They give bonds to give the state a guarantee of $1,000,000 for the privilege of holding two patriotic concerts in Nevada.

EUREKA, March 9.—A letter from Pioche, March 5th, says that Eldorado, Lincoln county, had a [illegible].

**The Nevada Style.**

EUREKA, March 9.—Lank Parish and one Clark were playing poker in a saloon to-day. The former was drunk, and lost $100. His loss incensed him, and he pulled his pistol and shot Clark, wounding him, though not seriously. Parish then opened fire on Greenwood, keeper of the saloon, and shot him in the stomach, inflicting a mortal wound. He left shortly after the shooting. Andy Fife, the coroner, appeared, and was proceeding to take Greenwood's deposition, when Parish again put in his appearance, with a pistol in each hand, and demanded that Fife take $100 from Greenwood's pocket which he, Parish, had lost, or he would kill them both forthwith. Fife complied.

**Chinamen Blown to Atoms.**

WALLA WALLA, March 10.—Last Tuesday as a gang of Chinamen were thawing giant powder near the Grange City railroad cut, the powder exploded, blowing two Chinamen to atoms and dangerously injuring two more.

**The Extreme Upper Columbia.**

Capt. A. Pingstone arrived here last night from Colville, coming by canoe down the Columbia to Ainsworth in nine and a half days. He found the river available for steamboats for four hundred miles above Ainsworth provided four portages are made.

**Items from Seattle.**

SEATTLE, March 10. A steady drizzling rain has fallen since morning.

A two year old child of J. C. Card, Third street, fell down a flight of stairs striking face downward against a coal oil can, cutting a terrible gash across the bridge of the nose.

The manufacturing interests of the city which has been rapidly extended during the past year, promise even greater extension during the coming season. Among other things a new and extensive iron foundry, making the third in the city, is about to be put in operation.

**Proposition to Establish a Beet Sugar Factory in White River Valley.**

SEATTLE, March 10.—A large meeting of settlers of White river valley was held Friday evening last to consider a proposition made by E. Mueller, representing California capitalists, for the establishment of a beet sugar factory in that locality, providing the farmers could guarantee a yearly produce of 10,000 tons of the beets. The soil of the valley is said to be particularly adapted to production of the sugar beet, yielding an average of from 15 to 20 tons to the acre. The proposition will probably be accepted.

**Items from Port Townsend.**

PORT TOWNSEND, March 10.—John J. McLean, of the signal service corps, arrived here to-day en route for Alaska, where he has received orders from Gen. Hazen to establish seven signal service stations immediately. The object of the government being to obtain every particle of information in regard to that territory.

The schooner C. C. Perkins, Francis, master, which cleared here a few days ago for Alaska, is reported ashore at Departure bay and it is thought will prove a total loss.

David Mills, head machinist in the Port Discovery mill, had his hand torn off to-day at the wrist by the saw. Dr. Minor was sent for, and with the assistance of Dr. Spencer, U. S. A., amputated the arm at the wrist. He is doing well to-night. His family reside in Seattle.

Swallowing POISON

Spurts of disgusting mucous from the nostrils or upon the tonsils, Watery Eyes, Snuffles, Buzzing in the Ears, Deafness, Crackling sensations in the Head, Intermittent Pains over the Eyes, Fœtid Breath, Nasal Twang, Scabs in the Nostrils, and Tickling in the Throat are

SIGNS of CATARRH.

No other such loathsome, treacherous and undermining malady curses mankind. One-fifth of our Children die of diseases generated by its Infectious Poison, and one fourth of living men and women drag out miserable existences from the same cause. While asleep, the impurities in the nostrils are necessarily swallowed into the stomach and inhaled into the lungs to poison every part of the system. Dr. Wei De Meyer's Catarrh Cure absorbs the purulent virus and kills the seeds of poison in the farthest parts of the system. It will not only relieve, but certainly cure Catarrh at any stage. It is the only remedy which in our judgment, has ever yet really cured a case of Chronic Catarrh.

Cured! Cured! Cured! Cured!

Dr. F. N. Clark, Dentist, with Dr. Brewer, 8 Montgomery st., San Francisco, cured of 15 years' Catarrh.

## COMING EVENTS

Completion of the Southern Pacific railroad is announced. That is the Atchison Topeka and Santa Fe road building west has met the Southern Pacific road building [illegible]. It is [illegible] however that the new connection will bring any result of importance to the Pacific slope [illegible] the [illegible] parts mentioned [illegible] road. The Southern Pacific is under the same ownership as the Central Pacific [illegible] the great California [illegible] which [illegible] to make war on the [illegible] a contingency which [illegible] very improbable [illegible]. The [illegible] connection [illegible] important [illegible] neither company will depend on [illegible] arrangement. The Atchison Topeka and Santa Fe with [illegible] the Pacific and the Southern Pacific with [illegible] to the Gulf [illegible] may then be established but there will be no competition that can in any [illegible] degree [illegible] part of the [illegible] slope till the Northern Pacific shall be [illegible] or until the Union Pacific extension through Idaho reaches us. For this end the former would be better than the latter as it is an entire independent line affected by no powerful connections that could control its policy while connection of the Union with the Central might still prevent that accommodation to our interests which is necessary to our full development and prosperity. But having both the Northern road and the [illegible] through Idaho we should [illegible] a [illegible] which would give promise [illegible] likely [illegible].

Development of the Northern railway system will completely establish that independence of the interests and claims of San Francisco which has always been regarded as essential to the best growth and highest prosperity of the Pacific northwest. When this consummation is reached we shall have comparatively little business with San Francisco. Travel [illegible] and [illegible] will no longer take that direction. Our merchandise will not be shipped that way. San Francisco will be out of the sphere of our activity. There will still be business between San Francisco and Portland but it will no longer be the controlling factor of our system. We shall develop and build up here a commercial center of our own with independent connections and direct trade across continent and ocean. This will come just so soon as the great volume of business of which the northwest is capable begins the growth that indicates its mighty future. Of course this will not long be delayed after the railroad system of the northwest now laid out and well under way shall have been well established.

A commercial paper of San Francisco talking of the prosperity of that city proceeds on the notion that the development of the entire Pacific slope will continue to be tributary to it, as heretofore. It says: "The area of our trade so far as regards population has increased mightily." And in support of this statement it gives the following table:

| | | 1880 | 1870 |
|---|---|---|---|
| California | population | [illegible] | [illegible] |
| Oregon | | [illegible] | 90 923 |
| Washington | | [illegible] 000 | [illegible] |
| Nevada | | [illegible] 500 | [illegible] 491 |
| Colorado | | [illegible] | [illegible] |
| Idaho | | [illegible] 000 | [illegible] |
| Montana | | [illegible] | [illegible] |
| Utah | | 144 000 | [illegible] 786 |
| New Mexico | | 130 000 | [illegible] |
| Arizona | | 41 580 | [illegible] |
| Total | | [illegible] | [illegible] |

The argument [illegible] so far as it [illegible] Oregon Washington Idaho and Montana is entirely misleading or soon will be so. For there is nothing more certain than that the time when this mighty region can still be included within the area of San Francisco trade draws to an end. Every year hence the people of this vast section will have smaller need of San Francisco. That city will undoubtedly continue to prosper as greatly as ever for it has an immense country tributary to it and is most fortunately situated as a central point for commerce. But it is not in the nature of things that it can remain the one great depot for so vast a country as our entire Pacific territory. It is not and never can be the final market for our products. It wants nothing that we have to sell and the time is coming when it will have nothing that we want to buy. Hence our business is sure to take other directions. San Francisco does not appear as yet to have sufficiently considered the changes that will inevitably take place here upon completion of our railroads. Perhaps this is because San Francisco does not yet realize the fact that we are doing anything here.

## THE WHIPPING POST

Newspapers of Indiana are engaged in warm discussion of a bill introduced in the legislature of that state to set up the whipping post for punishment of wife-beaters. Almost everybody in the state appears to be enlisted in the discussion. It is at least a diversion from the humdrum round of partisan contention so prevalent in Indiana, and outsiders therefore may look upon it as a novelty while they note with interest the warmth which this new inquiry evokes. The subject is one which has been receiving some attention in almost every state. Let us mark the Hoosiers for a little time while they unmuzzle their wisdom upon it.

The question of woman suffrage was lately before the legislature also and the Indianapolis News strongly opposed it. Nevertheless it makes itself the champion of this proposition to punish wife-beaters at the whipping post arguing therefor from considerations both of justice and propriety. It believes in punishing a class of brutal wretches in the only way that can really touch their feelings—that is, their sensibility to physical pain—for moral feelings they have none. On the other hand the Madison Star, an advocate of woman suffrage opposes the enactment of a law to punish wife-beaters with the 'cat.' It shudders at the presence of "the jeering crowd," speaks of "quivering flesh, livid stripes, and other things that the heavy brute himself doesn't dread at all when he is inflicting them on his wife." The Star doesn't desire to "return to barbarism," nor does it wish to "brutalize communities." Here the Madison Herald takes up the question in opposition to its sensitive neighbor. "A wife-beater," it says, "ought to have his quivering flesh cut into bleeding and livid stripes by a [illegible] and then salted and peppered into the bargain. We long to hear a wife beater howl for mercy." The New Albany Ledger-Standard is quite as truculent. It declares it is ready to approve all the acts yet proposed on this subject and the severer such acts are made the more it will favor them. "Punish the wife whipper," it says, "in any way most hurtful and degrading to such brutes in human shape, even though they be thoroughly perforated with buckshot, bullets or grapeshot. The sooner wife-whippers or woman beaters are wiped from the face of the earth and exterminated the better. Get rid of the brutal, cowardly scoundrels that disgrace the human race."

But are there not others than women-beaters for whose crimes the whipping post would be a salutary punishment? How would it do to try the lash upon all who commit assault with intent to rob, who are guilty of [illegible] cruelty to children, who commit [illegible] assaults on female honor? There [illegible] many who think this mode of punishment might be extended even beyond all these cases with advantage.

The world's fair project of 1883 does not find much [illegible] favor among the New York [illegible] capitalists [illegible] give encouraging hope [illegible]. The public spirited gentlemen who [illegible] have not even determined upon a [illegible] thought they [illegible] done so but their resident Gen Grant has informed them that [illegible] located it will not do and that [illegible] must secure another, he suggesting that [illegible] Central Park should be chosen. [illegible] would be rather more than content to adopt his suggestion if they could [illegible]. [illegible] that the citizens of New York [illegible] little interest in the project [illegible] they positively refuse to let it [illegible] their park. From the very beginning the enterprise has been coldly received [illegible] manufacturers and merchants of New York [illegible] little encouragement [illegible] leading metropolitan newspapers [illegible] lately declared that nobody wanted [illegible] except the railroads and hotels and [illegible] subscriptions [illegible] the expectations of the managers and [illegible] has a discouraging [illegible].

Milburn, the blind preacher [illegible] in a conversation with him foretold the downfall of Louis Napoleon, whom he likened to an opera singer whose opera house was [illegible] to be [illegible] by an earthquake of God. Carlyle in 1869 told Milburn that although [illegible] revising his works he found that he had [illegible] his opinions he knew that he had been true to himself. He [illegible] that he had [illegible] handful of [illegible] and folly. [illegible] Carlyle spoke of the snaft of doubt with which [illegible] and so-called leaders of thought were trying to sneer God out of the universe. Milburn makes Carlyle a firm believer in God's government of the universe.

Up to the time of his leaving Mentor President Garfield had received a little over 1700 direct applications for office. A newspaper writer who claims to have seen a partial list says that among the applications was a request for the appointment of minister to England by a person who certainly never was heard of outside his own county. Another asked for any high office, state or federal. A poor maiden wrote that she was engaged to be married to a model young man but her parents were opposed to the match and would cut her off without a cent, and she begged that the president would give her a chance to earn something for herself. Most of the applications were merely for clerical positions.

On the 31st December William H. Vanderbilt received a treasury draft for $47 000 being interest for three months on his investments in United States bonds. Four times a year the government pays him this enormous sum. Besides the investment of $47 000 000 in government bonds thus indicated Mr Vanderbilt is believed to own more than $100 000 000 of railroad securities. He also possesses a large amount of valuable real estate in New York and elsewhere. His fortune is without historic precedent, being the largest ever possessed by any one individual. All this vast fortune represents the tariff levied on public transit and traffic during the last thirty years.

Bonanza Mackey is in Rome having statues and pictures [illegible] and left. This is the bonanza style. One of these children of fortune after making a tour of Europe with his wife and daughters and returning home was asked if they had seen the Dardanelles. "O yes," was the ready answer, "we dined with them at Vienna." In order to show that he has as much sense as money and that he is not the man to fool money away on [illegible] productions Mr Mackey will doubtless propose to hire the "old masters" to paint him a lot of pictures to order.

Mr Edward McPherson, compiler of the political statistics of the Tribune almanac, has revised the returns of the November election and finds this result as between Garfield and Hancock:

| | |
|---|---|
| Popular vote for Garfield | 4 454 491 |
| Popular vote for Hancock | 4 446 [illegible] |
| Garfield's plurality | [illegible] |

Mr McPherson claims to have corrected these figures by the official returns from all the states.

President Garfield credits Ohio's lead in public affairs and the sureness of her republican majorities on all necessary occasions to the fact that there are no bosses in that state.

**LAND PLASTER.**

NOW IS THE TIME TO SOW IT

A GOOD SUPPLY AT

EVERDING & FARRELL'S.

**ENTIRE CHANGE.**

Having just completed marking our goods at a

**GREAT REDUCTION,**

We are now prepared to offer our entire stock, which is complete in all its departments, at

**SAN FRANCISCO'S LOWEST PRICES.**

Why we have made this grand change is

1st. We are disposing of our retail business in San Francisco to make Portland our headquarters.

2d. Nearly all the desirable goods have been shipped up here to be sold.

3d. We have better facilities this year than ever before.

4th. We mean to lead the trade in our line, if the LOWEST prices for the BEST goods will bring it.

**REMEMBER,**

It is a pleasure, and not trouble, to show goods, when our prices invite opposition, but defy competition.

IN OUR

**GLASSWARE DEPARTMENT**

We have really done wonders, having reduced the entire line 50 per cent. This is no humbug, but come and be convinced. We are to-day giving more Glassware for one dollar than any other house in town for two dollars.

Having an extraordinary large stock in the above line, we feel justified in saying that we can satisfy the poor and rich, having cheap, medium and the very best Glassware made.

FOR OUR

**CROCKERY DEPARTMENT**

We can only repeat the above facts,

**FRENCH CHINA.**

We have just received, direct from France, 25 casks of that celebrated L. Haviland & Co. ELITE CHINA, the very best goods ever imported to this country, which we offer at a great reduction from former quotations.

We have entered into a large contract with the leading

**BABY CARRIAGE FACTORY**

East, which enables us to give a better carriage for the money than any other house on the coast, being of our own and direct importation.

**OUR CUTLERY**

Has been greatly reduced. We carry none but the BEST,

J RUSSELL & CO'S GREEN RIVER CUTLERY.

**LAMPS AND CHANDELIERS**

We have marked down full one-third.

**ALL OUR SILVERWARE AT A GREAT REDUCTION.**

Desirous of LEADING the TRADE in our various branches, we have firmly concluded on Large Sales and Small Profits. A call will convince all that only FACTS are stated, and a cordial invitation is now extended to the public of Portland and vicinity to inspect our goods after the great change in prices.

[illegible] Out.—Complaint is made that papers on file in the rooms of the library association are frequently mutilated by parties who seem to think it their privilege to cut and take away whatever articles strike their fancy. There is a statute that punishes such acts as vandalism by heavy fines and those who commit such depredations would do well to look out. Last evening as we are told the [illegible] was cut to pieces within a short time after it was filed. The library authorities have their eyes on certain of these vandals.

Taken by Surprise.—The Sentinel says: "St Michael's College, faculty and scholars were taken by surprise last Tuesday by His Grace Archbishop Seghers. Rev Father Glorieux however, was equal to the occasion and his grace was joyfully received and conducted through the different class-rooms, the boys respectfully rising on his entrance. The archbishop expressed himself highly satisfied with the excellent management and the progress of the school."

Death of Mr Gault.—A dispatch was received here yesterday from up the Columbia containing the sad intelligence of the death at Pendleton of D M Gault. He died at his home in Pendleton yesterday morning. His father, and sister, Mrs Capt W [illegible] Buchanan were with him at the time of his death. Mr Gault formerly resided in this city where he has many friends.

U S Circuit Court.—Judge Deady will deliver an opinion in this court this morning upon the demurrer to the indictment in the case of the U S vs William H Watkinds and will announce a decision in Estes & Carter upon the objections to the [illegible] proofs of debt by Hardenberg. [illegible] and [illegible]

[illegible] Dwellings.—B L Stone the jeweller let contracts yesterday to E C Potter and Anderson and Cordell for three five room mansard roof cottages to be erected on the northwest corner of Seventh and [illegible] streets. The cottages will cost about $1000 each.

Arrested.—Reodlum Harry alias Harry Hendrickson who was released from the county jail a few days ago, was arrested last evening on a charge of threatening to kill a woman named Johnson. Hendrickson was lodged in the city jail.

[illegible] Cattle.—Good cattle are a rarity now, but we occasionally see a band that shows up favorably. Burkhart & Spalding, the butchers, received a number from the Cowlitz and Dutch [illegible] [illegible] the [illegible] at present [illegible]

[illegible] Half Mast.—Among the flags which were displayed at half mast yesterday may be mentioned the [illegible] flag corner of Third and D streets. During his life Mr Francis proved himself a real friend of the institution.

[illegible] Wages.—Suit was commenced yesterday in the U S circuit court by the crew of the American [illegible] for wages. The vessel has failed to furnish bonds as required, and still is in custody of the officers.

The Columbia.—The steamer Columbia arrived at Astoria yesterday forenoon and went down to [illegible] Bay, but not being able to cross out came to anchor.

## PERSONAL.

Mr J W Gay, of Crawfordsville Linn Co, is in the city.

Mr F S McComas of Lebanon, formerly publisher of the Mountain Sentinel is in the city.

Mr Frank Robbins head bookkeeper at Hodge Davis & Co's is slowly recovering from a severe illness of some weeks duration.

Judge L O Sterns of Baker City, is in the city. He will leave for Salem this afternoon where he goes to attend to an important case in the supreme court.

## BUSINESS NOTICES.

Hecht Bros & Co have succeeded to the business of Redlich, Hecht & Co, and established a branch of the San Francisco house in this city. They have a most complete assortment of boots and shoes of the best eastern manufacture.

Mr J Dovell of the firm of Dovell & Co manufacturers of furniture, etc, of Walla Walla, has been spending a few days in the city on business and leaves by this morning's boat for home. He takes Frank Phelps with him for foreman of his upholstering establishment who has been for several years past in the employ of Messrs Shindler & Chadbourne.

## FATAL RUNAWAY ACCIDENT.

### Hugh Conley Dragged by a Runaway Team and Killed near Brooklyn Mills.

Last night some time after dark, Paul [illegible] discovered the body of a dead man lying in the road about one fourth of a mile north of the Brooklyn mills. He immediately came to the [illegible] and notified coroner [illegible] who proceeded to the place. Investigation revealed that the man had the back of his head crushed in, and the [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] the wagon and drove to the city hall [illegible] The man [illegible] [illegible] [illegible] this morning at the [illegible]

## THE SECOND ESPINOSA CONCERT

[illegible] the artists [illegible] [illegible] at the [illegible] [illegible] was attested by the [illegible] [illegible] Mendelssohn [illegible] [illegible] [illegible] Signor Espinosa's performances on the piano were described in these columns on the occasion of his appearance here last summer. He has lost none of his remarkable skill.

The company will give two more concerts Saturday afternoon and evening.

## FUNERAL OF W W FRANCIS

Yesterday afternoon all that was mortal of the late W W Francis was consigned to the [illegible] [illegible] Trinity church was crowded with friends of the deceased [illegible] with members of the various civil organizations to which Mr Francis belonged. As the procession filed in, the organist, Mr [illegible] Lawrence played March Funeral, by [illegible] Rev John Rosenberg read from 1 Corinthians xv 20 58 after which the choir sung Hymn 512. Rev Geo [illegible] Plummer then read the regular burial service of the Episcopal church which was followed by the singing of Hymn [illegible] As the cortege passed out Mr Lawrence played Marche Funebre by Batiste. The musical services were indeed impressive. A number of beautiful floral offerings accompanied the remains. The following Masons acted as pall bearers: Messrs C H Lewis, P [illegible] Snyder, Geo L Story, J W Cook, H L Hoyt, John McCraken, Wm Gallick and Thos Mann. The various Masonic organizations which attended in full regalia and uniform made an imposing appearance. The customary Masonic ceremonies at the grave were conducted by Willamette Lodge, Grand Master R P Earhart reading the services.

## NEWS NOTES FROM EUGENE CITY

[illegible] CORRESPONDENT OF THE OREGONIAN

EUGENE, March 9 1881

The teachers institute is holding forth at Eugene, and is very largely attended.

T J Dunn Esq, was unanimously elected school director on Monday last. Rufus Callison receiving the highest number of votes, was elected [illegible] clerk.

The Eugene City brass band has received an invitation to participate in a brass band contest to take place at Dalles the coming spring. The band boys will most likely take a hand in the tournament and try and walk away with one of the prizes.

Prof [illegible] Johnson has been giving a series of scientific lectures this week, the lecture being illustrated by numerous well executed paintings. The entertainments were rendered doubly attractive from the exhibition of many very fine stereoptican views.

W M Wilson Esq spent several days in Eugene this week, engaged in searching [illegible] lands [illegible] in the interest of the Scotch [illegible] From the number of trips Mr Wilson makes to this place we infer that our farmers are borrowing largely from the above mentioned company.

We are having a long spell of wet weather, greatly retarding the operations of our farmers. There is not a very large acreage of fall grain this year [illegible] [illegible] very largely in spring sowing, but judging from appearances at present but little can be done [illegible] for some time to come as the [illegible] [illegible]

An ordinance was framed and presented [illegible] common council at its last meeting [illegible] object the welfare of our young boys [illegible] [illegible] [illegible] under age to be [illegible] around the streets after dark. [illegible] [illegible] at its next meeting will pass the ordinance [illegible] it is very much needed.

## RESULTS OF THE WINTER

### Heavy Losses of Stock in Some Localities, but the Area of Losses not Very Extensive

[From the Dalles Times

Now that the winter is over we can arrive at some estimate of the loss of cattle and sheep in this county. Horses have suffered but little as they can hunt for feed under the snow much better than cattle and sheep. There will be a great loss of stock, as [illegible] the ground is in such a condition [illegible] [illegible] their weakness they will not be able to extricate themselves.

During the week we have conversed with several stockmen regarding their losses [illegible] this cannot give a definite statement yet they [illegible] at [illegible] approximation. The winter has been confined to the region of country along the Columbia river [illegible] [illegible] for a long length of time. [illegible] instance, from Antelope 70 miles south of the Dalles [illegible] winter has not been [illegible] and the loss of stock is [illegible] [illegible]

From Mr A [illegible] of Cross Hollows we learn that the loss may average about [illegible] per cent of cattle and sheep [illegible] [illegible] [illegible] and sheep

Mr Charles White from Rock creek came into town during the week and [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

## AGAIN.

We sat on the porch when the rain came down,
With its murmurous love notes all in tune,
And hid from our vision the mountain's crown,
And dreamily lulled with its summer croon;
And over the buttercup's yellow flame
The rare, sweet scent of the lilacs came.

Her hand, like a lily, was clasped in mine—
Herself a lily of purest grace—
And over her features there stole, divine,
The love which brightens the palest face;
And over the rain-cloud's shade of gloom
Came the lilac's breath, with its sweet perfume.

Ah, well we are here in the porch to-day,
As we sat that day in the porch, of yore,
The rain is falling across the way,
And wrecks are stranded upon life's shore,
And over the drip of the falling rain
The scent of the lilacs come again.

A recent obituary notice says: "Mr. Smith was an estimable citizen. He died with perfect resignation. He had recently been married!"

Thursday Evening, March 10.

The Portland financial market shows no unusual features. The San Francisco market is reported by the San Francisco Commercial Herald in its issue of the 3d, as follows: "The money market continues to be characterized by a large volume of unoccupied loanable funds, which is seeking investment upon more favorable terms than ever before known—not in the risky speculative fields for which Californians have heretofore been so well known, but in a cautious and careful manner, and in such ways as experience has taught those with means to gain advantages instead of losses. This transition from the extremely speculative ways to careful business channels is becoming quite general, and has much to do with the stagnant condition of mining stock operations and the great field collaterally controlled by such operations. The result is of course hurtful for the time being, but will eventually be of incalculable benefit to the entire community instead of the comparatively few who have been the sole reapers. It has been the custom of those with surplus gains to carry them to Pine street for speedier and larger returns, and it took a long time to convince them that it was folly to hope for any returns to outsiders except in a very few instances. It is a lesson that so far has been beneficial to all dealers upon "points" and "friendly advice," but effectual as the lesson has been—principally due to the lack of large bodies of ore in the Comstock lode, still if any considerable amount should be uncovered the excitement and speculation would rival former days. There is no denying it that the mining share market has been for years controlling our money market, and for that matter in a large measure governing our business relations, and now in emerging from this channel it works hard until other better and sounder fields of occupation are taken possession of. Real estate goes readily under the hammer, and it is astonishing to find large number of properties that are for sale. This is particularly the case with residence property. In business localities this is not so much the case for the low prices generally ruling attract those with available cash for good investments, fully aware that this state of affairs will not exist for long in a city of such great future prospects as San Francisco most surely has. The sales of real estate in this city for the month of February, numbered 172, of the value of $813,849. The mortgages for the same time were 104 in value $803,565, and 196 releases, aggregating $396,242. In miscellaneous securities the market is comparatively bare, and all offers are quickly taken. The transactions have not been large during the week because of the close manner in which stocks are held. There is a bear movement in operation on gas stock, which is down to 74, our last week's quotation being 75@76. Spring Valley water is also somewhat lower, being quoted at 109@130½. The supply of bullion is light; gold bars, 890@910; refined silver bars, 11¼@12¼ per cent discount; refined silver (London), 52⅞ per oz.; exchange on Atlantic cities, 5-12@⅛ per cent. premium; telegraphic transfers 1@1⅛ per cent. premium; sterling exchange, 49@49¼d; commercial exchange, 50@50½d; Mexican dollars, 90c.

Transactions for the week have been heavier than last week, but the range of prices has been about the same. The top price so far reported—$1 31 per cental—was paid on Thursday for an extra fine lot of 4000 bushels. The price generally paid during the week was $1 27½ per cental, and the market seems to be well established on that basis. Offerings are much freer, and are readily taken by shippers. There is no special competition, however, among them. The tonnage situation remains as last reported. Eighty shillings for an April ship was the last charter, and a vessel now in port is held at 85s. No new vessels are reported on the way.

### Surplus Valley Wheat in Western Oregon.

At the warehousemen's meeting held in this city February 15th, J. R. Farrish, W. P. Owens and W. A. Wells were appointed a committee on shipping interests of this port to report at the Salem meeting March 2d. This committee reported the following quantity of wheat in the Willamette and Umpqua valleys: Albany, 4200; Independence, 5100; Salem, 5000; Corvallis, 5700; Derry, 1200; McMinnville, 900; McCoy, 350; Gervais, 3900; Roseburg, 3000; Hubbard, 750; Carlton, 300; North Fork, 300; Forest Grove, 210; Cornelius, 900; Hillsboro, 1500; Springfield, 10; Bolston, 900; Dayton, 340; Eugene, 5000; Cottage Grove, 600; Marion, 504; Goshen, 300; Lincoln, 720; Dallas, 210; Templars, 640; Junction, 126. Total, 43,580 tons. In Portland there are 18,840 tons stored as follows: O. R. & N. Co's dock, 1415; O. & C. R. R. Co's dock, 7100; Greenwich dock, 5000; Lewis & Flanders' dock 6000; Morrison street dock, 600; Pacific dock, 825; American Exchange dock, 1000. This makes a total so far as received of 62,420 tons. Estimating the amount of wheat in other interior towns not heard from authoritively on reports obtained in the city and the aggregate amount of wheat now in the state, does not exceed 82,000 tons.

The wheat bears were greatly astonished at so small a showing, claiming it was from 25,000 tons to 50,000 tons below what there really is. When the report was read at Salem, a gentleman from this city questioned its accuracy and after considerable discussion, that portion of the report was referred back to the committee to obtain more definite information of the delegates from the different counties present. Each county delegation organized and after carefully going over the estimated quantities stored in each warehouse in their several counties returned the following: In Marion county—Salem, 250,000 bushels; Jefferson, 100,000; Turner, 40,000; Marion, 20,000; Ainsworth, 8000; Gervais (estimated) 30,000; Woodburn, 32,000; Butteville, 12,000; Fairfield, 50,000; Silverton, 55,000; Scott's Mills, 10,000; Franklin, 5000; Townsend, 2500; French Prairie, 15,000; Stayton, 12,000; Hubbard, 20,000; total, 679,500 bushels, equal to 19,085 tons. In Linn county—Albany and Tangent, 295,000 bushels; Scio, 44,000; Harrisburg, 150,000; Shedds, 52,000; Halsey, 145,000; Peoria, 8000; Brownsville, 25,000; Brandon, 12 000; Humphrey's, 11200; Milton, 10,000; one place committee could not read the name, 10,000, and outside, 12,000; total, 775,000 bushels, equal to 23,250 tons. Lane county's committee reported the following in tons: Springfield, 90; Eugene City, 2100; Cottage Grove, 600; Goshen, 300; Junction City, 125; Luper, 300; Irving's, 1350; total, 4750 tons. Polk county reported through Hon. Jas. R. Sears 400 tons less than that reported at the warehousemen's meeting Feb. 15 and Douglas county 300 tons less. The other counties reported previous statements correct. The aggregate held in each county, including that in Portland, aggregates 90,450 tons, only showing 8450 tons over the warehousemen's committee's report. How much of this 90,450 tons will be available for surplus each person must make his own estimate. Several warehousemen report farmers obtaining wheat for seed, while others will require considerable. Quite an amount will also be used for home consumption and also for export in flour to northern ports.

## NEW YORK FREIGHTS AND MARKETS

New York, March 10.—A violent rain storm has caused delay in the loading of California bound vessels, and there has been very little done at the wharves of leading ships. However, with the advent of pleasant weather, quite an active spirit is anticipated. Rates in the meantime are very firm at last quotations. Tonnage is in good supply and both lines have a full list, while at the same time they are on the lookout for any desirable vessel to follow in turn.

The announcement of the joining of the Atchison, Topeka and Santa Fe and Southern Pacific railroads, causes much good feeling among shippers, as it will be an end to the overland monopoly. It is expected that a schedule of rates will be issued shortly, but whether based on the same tariff as the present route is not known. It is intimated that both routes will pool, but as this comes from officers of the old roads who are doing all they can to induce shippers to make contracts, it is scarcely believed by shippers.

Business in general market is not over active, although prices generally are steady.

Wheat—Dull, unchanged.
Barley—Dull, easier.
Pork—Held higher, but dull.
Lard—Quiet; 10 higher.
Rio Coffee—Low but firmer.
Refined Sugars—Very firm, with good demand.
Hides—Demand 1 higher.
Petroleum—Dull, weak.

## MARK LANE REPORT.

### Review of Last Week's Markets—Crop Prospects.

London, March 8.—The Mark Lane Express' review of the British grain trade for the past week says: In consequence of changeable, damp weather here, agricultural prospects at the beginning of March were serious, and little progress in sowing had been made since Christmas. The young wheat crop is in favorable condition. Good home grown samples from mere scarcity advanced 1s to 2s. On Friday both in London and the provinces had wheats were unchanged and neglected. Foreign wheat until the middle of the week was improved American red winter and Australian, to the extent of 1s. The advances however were solely due to scarcity of supply, and buyers are now waiting for prospect in supplies. Flour has generally advanced 6d. Foreign oats are in small supply, and holders are firm, but buyers are waiting for the reopening of the Baltic. Maize on spot, though in short supply, improved 6d, but the demand was inactive. The off coast market was bare during the week. Sales of English wheat during the past week, 31,525 quarters at 41s 9d, against 29,330 quarters at 45s 3d for the corresponding week of last year.

## SAN FRANCISCO MARKETS.

### Complete Review of the Produce and Merchandise Trade Specially Reported and Telegraphed to the Oregonian.

San Francisco, March 10.—The wheat market yesterday showed signs of weakness, and, except for milling, $1 37½ per cental was the top price for choice. Buyers held off and trade was decidedly slow. The English market was dull and lower. The freight market was firm, with good inquiries for tonnage at present rates of freight. Overland shipments of barley are restricted, but a slight reduction would enable shippers to send forward considerable. It is not probable, however, that the railroad will make any concessions.

An advance of one cent a pound in the price of cordage is the only noteworthy change in merchandise.

Cattle market—Beef, first quality, 6@7c; second do, 5@5½c; third do, 4@4½c per pound; veal dressed, 7@8½c per pound for large and 9@10c for small; milch calves 8@10c per lb; mutton, dressed, 4½@5c; ewes 4@4½c per lb; lamb 10@12½c; hogs, dairy and grain fed on the hoof 5½@5¾c per lb; soft 5c; dressed do 7½@7¾c; roasting pigs alive $2@2 50.

### Shipping News.

The Zorica will close out on Saturday, as will also the Isadura.

The Ryevale is at the east side taking a cargo of flour and wheat. She is about two-thirds loaded.

The Glenearn will have her load of iron discharged and be ready for stiffening on Saturday.

The Canada swings at anchor, and is unloading her cargo of railroad iron slowly. Contrary to first reports, she is in good condition after her long voyage and her charter prospects are excellent.

The Glenearn, the only available disengaged ship in the river, is held at 85 shillings. A vessel to arrive in April was chartered Monday at 80 shillings.
